Care Park awarded contract for VicTrack's non-commuter car parking portfolio

Care Park Pty Ltd has been awarded the contract for VicTrack's car park management services for non-commuter car parking adjacent to metropolitan and regional railway corridors across Melbourne.

Care Park was successful in a competitive request for tender process offering a superior tender bid to manage VicTrack's nine metropolitan sites. The contract was awarded after an extensive tender process.

VicTrack has nine paid parking sites, including the Batman Avenue/Princes Bridge site near the tennis centre.

Care Park was among Australia's largest parking operators operating 300 car parks across Australian cities and towns and growing its car park portfolio with 40 sites now in New Zealand and 15 in South East Asia.

Care Park has expanded not only its operations but ensured it has stayed at the forefront of technology to continue to offer customers seamless parking convenience with the installation of state-of-the-art facilities at its sites.

VicTrack is a state rail business that supports Victoria's public transport without relying on government funding. Its core roles are to deliver public transport telecommunications and manage railway land not used for rail services.
