

Powering secure connectivity across Victoria

Wholesale telecommunication services by VicTrack

Empowering wholesale carriers with extended connectivity

Wholesale carriers demand more than just infrastructure—they require resilient networks, diverse coverage, scalable capacity, and a partner they can rely on. With growing pressure to meet customer demands, ensure uptime, and deliver future-ready services, wholesale providers are actively seeking partnerships that add genuine value and long-term capability.

That's where VicTrack comes in.

As the trusted custodian of Victoria's rail transport land and assets, VicTrack operates and manages one of the most extensive fibre networks in the state—offering wholesale carriers a competitive edge through a combination of reach, security, reliability, and responsiveness.

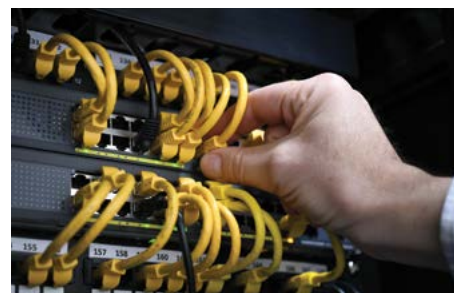

Dark Fibre

High-capacity, unlit fibre between key locations—ideal for carriers needing full control over their own equipment and transmission.

Wavelength

Dedicated, low-latency links between metropolitan and regional sites—supporting the backbone of your network.

Ethernet

Scalable Ethernet services for reliable, high-speed data connectivity.

Data Centres and Co-location

Access to secure facilities and Points of Interconnect (POIs) for seamless integration with your existing network.

Custom network builds

Tailored network extensions or greenfield builds based on your strategic objectives. IPWANs can be easily reconfigured to adapt to changing business needs.

Extensive network coverage

With an expansive, high-capacity optical fibre network traversing transport and rail corridors and beyond, VicTrack offers unrivalled reach across metropolitan and regional Victoria. Our network spans essential infrastructure, transport hubs, and business centres, ensuring geographical redundancy, broad access and seamless connectivity.

Carrier-grade infrastructure

Built for performance and engineered for reliability, VicTrack's telecommunication infrastructure meets the rigorous standards expected by Tier 1 carriers. Our diverse fibre paths and multiple POIs offer redundancy and peace of mind.

Secure and independent

Operating independently of traditional telcos, VicTrack provides a neutral, secure, and collaborative wholesale environment. Our commitment is to enable your success—without competing with your core business.

Rapid provisioning and local expertise

As a Victorian Government entity, VicTrack provides fast provisioning, responsive service, and a genuine understanding of the regulatory and technical environment.

Dark fibre and managed services

Whether you require Dark Fibre to build your own network or prefer managed services with end-to-end support, VicTrack offers flexible solutions tailored to your operational needs and business model.

Partner with VicTrack today

Join leading wholesale carriers who trust VicTrack to enhance their network capabilities and support their growth. Let us help you deliver faster, broader, and more reliable services to your customers.

About VicTrack Telecommunications

VicTrack is a licensed telecommunications carrier that owns and operates one of the largest fibre optic networks in Victoria. Our secure, scalable, multi layered network delivers speeds of up to 100Gbps. Monitored by our Melbourne-based 24/7/365 Network Management Centre, the core network has an availability of 99.999%. A data specialist, VicTrack partners with customers that include Metro Trains, V/Line, Yarra Trams, other carriers and various state and local government departments.

About VicTrack

VicTrack is the custodial owner of Victoria's transport land, assets and infrastructure – and works to protect and grow the value of the portfolio to support a thriving transport system, and make travel and living better for Victorians.
