

**Full-service
telecommunications
provider for
transport,
government and
wholesale customers**

A licensed telecommunications provider, operating one of the largest fibre networks in Victoria

Our telco network is located where you need it.

As a provider integral to transport, we deliver carrier grade telecommunications services over a fully redundant, geographically diverse network. From single link connections to comprehensive whole-of-network solutions, we offer available, reliable, secure and high-speed data and voice services.

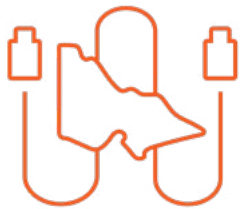

VicTrack has successfully delivered projects for public transport operators, government agencies and departments, wholesale carriers and critical infrastructure providers.

We provide a full suite of telecommunications services including the underlying infrastructure to support the delivery of public transport customer information, myki ticketing, driver communications and other network critical systems such as signalling.

A strong track record of delivering telecommunications products and services

VicTrack continually invests in network improvements, introducing next generation technology. We combine sector insight with robust infrastructure, expert engineering and support. We offer a consistent, single point of contact for all your needs through our Network Management Centre based in Melbourne.

Extensive

Our Victorian-owned fibre network is located in the Melbourne CBD, metropolitan and regional areas and along the rail corridor. Network reach is extended through our partnerships with other wholesale providers, which allows us to deliver cross-corridor path diversity and network redundancy.

Available

Our purpose-built infrastructure and facilities deliver high-speed performance, targeting 99.999% core network availability. 24/7/365 monitoring and a range of SLA options make it perfect for mission-critical applications.

Established

Trusted by public transport operators, government agencies, wholesale carriers and essential infrastructure providers, VicTrack has a proven track record of delivering complex projects.

Reliable

Our Melbourne-based 24/7/365 Network Management Centre provides network monitoring and rapid incident response and facilitates planned and emergency repair. Redundant paths and automated switch overs contribute to the highest standards of reliability.

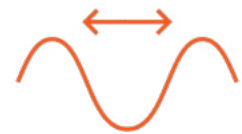

VicTrack supplies a comprehensive range of telecommunications products and services, to meet the specific needs of your business.

About VicTrack Telecommunications

VicTrack is a licensed telecommunications carrier that owns and operates one of the largest fibre optic networks in Victoria. Our secure, scalable, multi layered network delivers speeds of up to 100Gbps. Monitored by our Melbourne-based 24/7/365 Network Management Centre, the core network has an availability of 99.999%. A data specialist, VicTrack partners with customers that include Metro Trains, V/Line, Yarra Trams, other carriers and various state and local government departments.

About VicTrack

VicTrack is the custodial owner of Victoria's transport land, assets and infrastructure – and works to protect and grow the value of the portfolio to support a thriving transport system, and make travel and living better for Victorians.
